- Bachelor of Science (BSc) in Electrical & Electronic Engineering, Mechanical Engineering

Experience

5 to 10 years

- The applicants should have experience in the following business area(s): Engineering Firms, Manufacturing (Light Engineering and Heavy Industry)

Responsibilities & Context

System Engineering Limited is a leading engineering organization in Bangladesh, specializing in Industrial Automation, Electro-Mechanical Engineering, plant electrification & maintenance, Lighting Automation, Energy Management, Power Distribution and Transmission, and custom machine engineering.

We are seeking a high-performing, technically sound, and leadership-driven professional to take charge of our Bogura Branch operations and lead our regional business expansion.

Key Responsibilities

- **Business Leadership:** Lead and manage the overall business operations, strategic growth, and client relations for the Bogura region.
- **Field Execution:** Oversee the execution of engineering projects on-site, ensuring compliance with company standards, safety protocols, and technical specifications.
- **Team Management:** Supervise, mentor, and guide field engineers and technical teams during fieldwork and project deployment.
- **Client Operations:** Serve as the primary point of contact for regional industrial clients, ensuring high satisfaction through excellent service delivery in automation and electrification.

- **Reporting:** Manage branch budgets, project timelines, and regularly report operational performance to central management.
