Responsibilities & Context

Microcredit Regulatory Authority (MRA) certificate number- 00488-00186-00065

BRAC is an international development organisation founded in Bangladesh that partners with over 100 million people living with inequality and poverty globally to create sustainable opportunities to realise potential.

BRAC Microfinance provides people who cannot access traditional financial banking services with access to a suite of financial services, including loans, savings and microinsurance. We provide an alternative to high-interest loans from informal lenders, supporting families to invest in income-generating activities, build assets, and reduce vulnerability to health shocks and natural disasters. Passionate about finance beyond formal banking systems? Join the BRAC Microfinance team to help build a more financially-inclusive society, where everyone can access finance when they need it - safely, responsibly and sustainably.

Working at brac is not like any other job. It is a platform where you can bring about real change for people who need it the most. We are not just dreaming of a better world, we are building it. Join us to find the way.

Job Purpose

The Deputy Manager, Project Management is responsible for driving measurable project outcomes for the Microfinance Programme through effective business analysis, strong stakeholder alignment, and high-quality requirement documentation. The role ensures clear translation of business needs

into actionable solutions through close coordination with technology teams, contributing to timely delivery, improved operational efficiency, and enhanced service quality for microfinance clients.

Key Responsibilities

- Engage with stakeholders to gather, analyze, and document business requirements.
- Prepare, review, and finalize Business Requirements Documents (BRD).
- Coordinate with Technical Business Analysts and development teams to ensure accurate preparation of Software Requirements Specification (SRS).
- Ensure proposed solutions are aligned with business needs, processes, and operational goals.
- Manage stakeholder communication and obtain necessary approvals for requirements and solutions.
- Analyze business processes, workflows, and user journeys to identify improvement opportunities.
- Work closely with cross-functional teams including Business, Development, QA, and Vendors.
- Facilitate meetings, workshops, and requirement discussion sessions.
- Provide clear use cases, process flows, and documentation to support development and QA teams.
- Support change request management and maintain updated documentation.
- Coordinate User Acceptance Testing (UAT) and ensure business validation and sign-off.

SAFEGUARDING RESPONSIBILITIES

- Ensure the safety of team members from any harm, abuse, neglect, harassment and exploitation to achieve the program's goals on safeguarding implementation. Act as a key source of support, guidance and expertise on safeguarding for establishing a safe working environment.
- Practice, promote and endorse the issues of safeguarding policy among team members and ensure the implementation of safeguarding standards in every course of action.
- Follow the safeguarding reporting procedure in case any reportable incident takes place, and encourage others to do so.
