Responsibilities & Context

Position: E-commerce Operations Executive (Data Entry / Packaging / Store Keeping / Customer Service)

Job Context: We are a renowned online based retail clothing brand looking for dynamic, trustworthy, and detail-oriented individuals to join our operations team. The role is ideal for multi-taskers who can seamlessly manage backend data, oversee inventory, ensure secure packaging, and deliver exceptional customer support to enhance our buyers` shopping experience.

Key Responsibilities

Data Entry

- Accurately upload, update, and manage customer data across our website.
- Process online orders daily and update order statuses in the management system.

- Maintain clean and organized digital records of sales, returns, and customer databases.

Store Keeping & Inventory Control

- Receive inbound stock, inspect goods for quality, and organize inventory systematically in the storeroom.
- Conduct regular stock counts to prevent shortages or discrepancies.
- Update inventory logs and notify management when stock levels are running low.

Packaging & Logistics Coordination

- Safely and securely pack products according to instructions.
- Generate and attach shipping labels & invoices accurately.
- Coordinate with third-party courier services for timely order pickups and track deliveries.

Customer Service

- Respond promptly and professionally to customer queries via live chat, social media (Facebook/Whatsapp) and phone calls.
- Assist customers with product inquiries, order placement, tracking, and sizing guides.
- Handle customer complaints, exchanges, and return requests with empathy and efficiency.

Work Location: Indira Road, West Rajabazar,Sher-E-Bangla Nagar, Dhaka.

Working Hours: Showroom hours (typically include a weekend or a rostered day off).
