Responsibilities & Context

Microcredit Regulatory Authority (MRA) certificate number- 00488-00186-00065

BRAC is an international development organisation founded in Bangladesh that partners with over 100 million people living with inequality and poverty globally to create sustainable opportunities to realise potential.

BRAC Microfinance provides people who cannot access traditional financial banking services with access to a suite of financial services, including loans, savings and microinsurance. We provide an alternative to high-interest loans from informal lenders, supporting families to invest in income-generating activities, build assets, and reduce vulnerability to health shocks and natural disasters. Passionate about finance beyond formal banking systems? Join the BRAC Microfinance team to help build a more financially-inclusive society, where everyone can access finance when they need it - safely, responsibly and sustainably.

Working at brac is not like any other job. It is a platform where you can bring about real change for people who need it the most. We are not just dreaming of a better world, we are building it. Join us to find the way.

Job Purpose

This role is responsible for managing and delivering end-to-end project and product initiatives within the Microfinance Programme, ensuring timely, high-impact outcomes aligned with business priorities. It drives strong cross-functional collaboration across business, engineering, vendors, and support teams to deliver scalable, high-quality solutions for millions of clients. The role acts as a bridge between business and technology, ensuring effective prioritization and alignment. It also ensures optimal resource utilization and continuous improvement in operational efficiency, sustainability, and client value.

Key Responsibilities

- Manage end-to-end product development lifecycle including planning, prioritization, execution, and delivery.
- Oversee solution design and development to ensure alignment with enterprise architecture, scalability, and integration standards.
- Define and manage product backlog, roadmap, and prioritization based on business value, impact, and urgency.
- Coordinate across cross-functional teams (business, development, QA, vendors, operations) to ensure smooth execution and delivery.
- Ensure timely and quality delivery of product releases, enhancements, and change requests.
- Monitor and manage product performance, risks, dependencies, and mitigation strategies throughout the delivery cycle.
- Ensure adherence to software development lifecycle (SDLC), agile practices, and quality standards.
- Collaborate with stakeholders to gather requirements, validate solutions, and ensure business alignment.

- Drive continuous improvement in delivery processes, tools, and methodologies.
- Manage vendor deliverables, performance, and coordination to ensure quality outcomes.
- Ensure compliance with SLA, KPI, and governance standards across product delivery and support.

SAFEGUARDING RESPONSIBILITIES

- Ensure the safety of team members from any harm, abuse, neglect, harassment and exploitation to achieve the program's goals on safeguarding implementation. Act as a key source of support, guidance and expertise on safeguarding for establishing a safe working environment.
- Practice, promote and endorse the issues of safeguarding policy among team members and ensure the implementation of safeguarding standards in every course of action.
- Follow the safeguarding reporting procedure in case any reportable incident takes place, and encourage others to do so.

Compensation & Other Benefits

Festival Bonus, Contributory Provident Fund, Gratuity, Performance Bonus, Health and Life Insurance, Maternity/ Paternity Leave, Wellness Centre Facility, Day Care Facility, and others as per policy.
