Responsibilities & Context

Job Summary

We are seeking an experienced **Oracle Identity Manager (OIM) Consultant** to implement, integrate, administer, and support enterprise Identity and Access Management (IAM) solutions. The ideal candidate will have strong expertise in Oracle Identity Manager (OIM/OIG), user lifecycle management, application onboarding, troubleshooting, and production support.

Key Responsibilities

- Implement, configure, and support Oracle Identity Manager (OIM/OIG) solutions.
- Configure user provisioning, de-provisioning, role-based access control (RBAC), workflows, and reconciliation processes.
- Integrate OIM with Active Directory, LDAP, databases, and enterprise applications.
- Develop and maintain connectors, provisioning policies, and approval workflows.
- Provide L2/L3 production support, troubleshooting, and incident resolution.
- Perform system upgrades, patch management, health monitoring, and performance tuning.
- Collaborate with application owners and infrastructure teams for application onboarding.
- Prepare technical documentation, SOPs, and support audit/compliance requirements.
- Ensure adherence to security best practices and organizational IAM standards.
