Envobyte Ltd.

SQA Engineer (Paid Internship)

Requirements

Education

- Higher Secondary

Additional Requirements

- Age 18 to 30 years
- Only Male
- Understanding of software QA concepts, SDLC/STLC, and testing methodologies.
- Familiar with manual testing, exploratory testing, and bug reporting.
- Familiarity with mobile devices, OS version differences, and app behavior.
- Strong observation, analytical thinking, and documentation skills.
- Willingness to learn, experiment, and contribute to production-level quality.

Responsibilities & Context

Envobyte Ltd. is offering a **paid internship opportunity** for enthusiastic individuals who want to build a career in Software Quality Assurance. The selected intern will work directly under the guidance of a SQA Engineer, assisting in real-world testing tasks for production-level Android & iOS applications used by millions of users worldwide.

This role is ideal for someone with basic testing knowledge who wants hands-on industry experience under professional supervision.

Responsibilities:

- Test Android & iOS apps for functionality, performance, and user experience.
- Execute test cases, regression, and exploratory testing under supervision.
- Help prepare and maintain test documentation, reports, and bug logs.
- Re-test fixed issues to ensure product stability before release.
- Collaborate with developers and designers to identify potential issues early.
- Learn and apply QA workflows, tools, and best practices in real projects.
