Corporate Technical Support Associate

Job Summary:

The Technical Support Associate will provide technical assistance to both employees and customers in troubleshooting and resolving computer-related issues.

Duties/Responsibilities:

- Mobile Device Management: connecting to network, installing applications. Examples include cell phones, tablets, mobile printers etc. (WMS equipment: wrist units and ring scanners a plus).
- Ordering, Receiving and Shipping equipment in/out of the Corporate office.

Maintaining and regular audits of assets such as an inventory management system.

- Identifies, investigates, and resolves user problems with computer software and hardware.
- Fields support calls, chat, email, and/or other communication from users with inquiries regarding software programming, connectivity, printing, and similar concerns.
- Guides users through diagnostic and troubleshooting processes, which may include use of diagnostic tools and software and/or following verbal instructions.
- Assists users with installation of software and troubleshooting of related problems; refers more complicated issues to appropriate staff.
- Communicates regularly with other members of the support team to discuss recurring problems and to share solutions and best practices.
- Setting up or repairing computer hardware and other associated devices such as printers and scanners; arranges some repairs with third party vendors.
- Troubleshooting system failures and identifying roadblocks in the network
- Setting up new users and giving them appropriate access
- Monitoring computer and telecommunication systems to improve network performance
- Performing backup procedures to reduce the risk of data loss
- Attends training sessions on new equipment, software, platforms, and other products; assists with development of user manuals and similar documentation for these products.
- Maintains knowledge of technology innovations and trends.
- Performs other related duties as assigned.

Required Skills/Abilities:

- Excellent verbal and written communication skills.
    - Excellent interpersonal and customer service skills, especially remotely.
- Ability to explain technical issues to technical and nontechnical employees and customers.
- Strong analytical and problem-solving skills.
- Proficient with Microsoft Office Suite or related software.
- Proficient with or the ability to quickly learn an array of computer hardware and software.

Education and Experience:

- Bachelor’s degree in Computer Science or related disciplines preferred.
- At least three years of experience in customer technical support highly preferred.
- System or network administration, VMware, telecommunications knowledge.

Physical Requirements:

- Prolonged periods of sitting at a desk and working on a computer.
- Must be able to lift 15 pounds at times.
