Position description

Strategic Analysis, Inc. (SA) Is actively seeking an **Intergovernmental Affairs Specialist** to support the Advanced Research Projects Agency for Health (ARPA-H) Division of Government Relations and Strategy (DGRS).

Roles and Responsibilities:

• Build and maintain relationships with FDA points of contact
• Collaborate with ARPA-H program managers and FDA contacts to support program development and ongoing program activities
• Collaborate with ARPA-H's Office of Commercialization (OC) to ensure PMs are supported with regulatory consultants
• Assist IGA Specialists with identification of key programs and key points of contact within USG agencies/programs in relation to ARPA-H programs/mission
• Capture data into Intergovernmental tracking system
• Create and maintain a dashboard of HHS interagency engagements and programs
• Draft reports on ARPA-H engagement or on potential opportunities as required
• Create presentations tailored to agency/divisions, support outreach and scheduling with agency contacts as require

Requirements:

• 3+ years previous support to FDA (Please note that this requirement is firm)
• 2-3 years in ARPA setting preferred
• Experience with contracts research, management tracking tools
• Must be detailed, diplomatic, with excellent communication, research, and writing skills, and flexible to juggle various projects at once
• Advanced skills in PowerPoint, Excel, etc., and other related presentation and tracking software tools

Education: Bachelor's Degree in a relevant field
