Principal Investment Officer

Job Description
The Asian Infrastructure Investment Bank (AIIB) is seeking a Principal Investment Officer to support the development and delivery of sustainable infrastructure projects across Asia and beyond. 🚀 In this senior role, you will lead the origination, structuring, and execution of complex public-sector energy and infrastructure transactions, with a strong focus on ASEAN markets and regional initiatives such as the ASEAN Power Grid. You will manage the full project lifecycle, build strategic relationships with governments, regulators, state-owned enterprises, and development partners, and help expand AIIB's energy portfolio through innovative financing solutions. 🤝 Candidates should have at least 15 years of experience in infrastructure investment, project finance, M&A, or advisory services, along with deep knowledge of the energy sector and strong stakeholder management skills. A master's degree in finance, economics, engineering, or a related field is required, while professional certifications and additional regional languages are considered an advantage. 📈 AIIB offers an inclusive and diverse environment where talented professionals can contribute to improving social and economic outcomes through sustainable infrastructure development. 🌱🌍
