Treasury Officer, Operations and Services

Job Description

The Asian Infrastructure Investment Bank (AIIB) is looking for a Treasury Officer, Operations and Services to support the smooth and accurate execution of treasury activities and post-trade operations across loans, securities, derivatives, and cash management 🌏💼. In this role, you will oversee trade bookings, settlements, reconciliations, loan disbursements, hedging transactions, margin calls, and cash flow forecasting while working closely with internal teams and external service providers 🤝📊. You will contribute to system and instrument implementation projects, support audits and reporting, maintain dashboards, and help strengthen internal controls and operational efficiency through automation and process improvements ⚙️📈. Candidates should have 5–8 years of relevant experience in an international banking environment, preferably within a multilateral development bank or international organization, along with a master's degree in finance, business administration, or a related field 🎓. Strong knowledge of SWIFT, treasury management systems, securities and cash management, collateral management, and Asian and emerging markets is essential. The ideal candidate is detail-oriented, collaborative, able to manage multiple priorities, and possesses excellent communication skills in English ✨. AIIB values diversity, transparency, and inclusion and welcomes applications from talented professionals of all backgrounds who are passionate about supporting sustainable infrastructure development and creating positive economic and social impact across Asia and beyond 🌱🌍.
