Co-Managing Partner – Venture Capital

Company Description

DIL HealthTech Ventures LLC is an emerging venture capital firm investing in breakthrough companies across healthcare, artificial intelligence, robotics, biotechnology, medical devices, diagnostics, aerospace, and frontier technologies. Our mission is to partner with exceptional founders building technologies that transform healthcare and improve lives worldwide.

As we prepare to launch our inaugural investment activities, we are seeking an experienced Co-Managing Partner to help build and scale the firm.

Role Description

This is a founding leadership role for an experienced venture capital professional who will work alongside the Founder & Managing Partner to establish and grow DIL HealthTech Ventures.

The ideal candidate preferably lives in Silicon Valley or the San Francisco Bay Area and has hands-on experience building or operating venture funds, SPVs, syndicates, or angel investment platforms.

Responsibilities include:

* Co-leading fundraising from Limited Partners (LPs), family offices, and accredited investors.
* Structuring and managing Special Purpose Vehicles (SPVs).
* Working with platforms such as AngelList, Assure, Carta, Sydecar, Allocate, or similar fund administration platforms.
* Developing the firm's investment strategy and sourcing high-quality deal flow.
* Conducting investment due diligence and leading investment committee discussions.
* Building relationships with founders, investors, accelerators, universities, and strategic partners.
* Supporting portfolio companies with fundraising, hiring, partnerships, and growth.
* Representing DIL HealthTech Ventures at venture capital and technology conferences.

Preferred Qualifications

* Previous experience as a General Partner, Venture Partner, Principal, Investment Associate, Founder, or Angel Investor.
* Direct experience launching or operating venture funds, syndicates, or SPVs.
* Experience using AngelList Rolling Funds, AngelList SPVs, Carta Fund Administration, Sydecar, Assure, or similar platforms.
* Existing network within the Silicon Valley startup and venture capital ecosystem.
* Strong relationships with founders, angels, venture firms, or institutional investors.
* Experience raising venture funds or participating in LP fundraising.
* Passion for investing in healthcare, AI, robotics, biotechnology, deep tech, and frontier technologies.

* Excellent leadership, communication, and relationship-building skills.
* Willingness to help build a venture capital firm from the ground up.

Location

Preferred: Remote in Silicon Valley / San Francisco Bay Area

Remote candidates with exceptional venture capital experience will also be considered.

Compensation

This is a founding Co-Managing Partner opportunity with meaningful equity participation, carried interest, and long-term upside. Compensation will be aligned with fundraising and the firm's growth milestones.

If you've helped launch venture funds, managed SPVs, worked with AngelList or similar platforms, and want to help build the next generation of healthcare venture investing, we'd love to connect.
