Frontend Web Developer - HTML,CSS (Remote)
APAC

About the job

- Role: Frontend Web Developer - HTML,CSS (Remote)
- Location: Remote (Work from Anywhere)
- Job Type: Contract
- Payout: $30 - $80/hour

Role Overview:

We are hiring for one of our clients, seeking a Frontend Developer - (HTML,CSS) to work on a contract basis. The role involves building and maintaining responsive user interfaces using HTML and CSS, ensuring cross-browser compatibility and adherence to design specifications. You will collaborate with design teams to translate mockups into functional front-end components.

Key Responsibilities:

• Develop and maintain front-end components using HTML, CSS, and related technologies

• Ensure cross-browser compatibility and responsive design across devices

• Collaborate with design teams to implement pixel-perfect UI elements

• Optimize front-end performance and accessibility standards

• Participate in code reviews and contribute to best practices

Required Skills & Qualifications:

• Proficiency in HTML and CSS with a strong understanding of semantic markup

• Experience with responsive design principles and mobile-first approaches

• Familiarity with CSS preprocessors (e.g., SASS, LESS) or frameworks (e.g., Bootstrap, Tailwind)

• Knowledge of browser developer tools and debugging techniques

• Ability to implement designs from Figma, Sketch, or similar tools

More About the Opportunity:

This role offers a unique opportunity to work with a global leader in the Technology, Information and Internet industry, contributing to the development of scalable and user-friendly web applications. The project involves creating front-end components for a high-traffic platform.

Equal Opportunity Employer:

We hire based on skills and expertise. All qualified candidates are welcome regardless of background, experience, or prior employment history. Applications are reviewed solely on demonstrated technical ability and qualifications.
