Junior Accountant
Khetan Hospital · Jaipur, Rajasthan, India (On-site)

About the job
Company Description Khetan Hospital is a healthcare provider serving the community of Jaipur with a focus on accessible, quality medical care. The hospital works across multiple specialties and support services to deliver coordinated treatment and patient support. Team members collaborate closely to maintain accurate records, efficient operations, and reliable data for clinical and administrative decisions. Khetan Hospital emphasizes ethical practices, transparency, and continuous improvement in both medical and support functions, including finance and accounting. Role Description This is a full-time, on-site Junior Accountant role based at Khetan Hospital in Jaipur. The Junior Accountant will assist with day-to-day accounting operations, including recording financial transactions, maintaining ledgers, and supporting the preparation of monthly and annual financial statements. Responsibilities include handling accounts payable and receivable, reconciling bank statements, verifying invoices, and ensuring accurate documentation of hospital expenses and revenues. The role also involves supporting billing and collections processes, coordinating with administrative and clinical departments to resolve discrepancies, and helping prepare reports for management and regulatory requirements. The Junior Accountant will follow established policies, support internal audits, and contribute to improving financial processes and controls.
Qualifications

- Foundational knowledge of accounting principles, including journal entries, ledgers, and reconciliation.
- Proficiency with accounting software and MS Excel, including basic formulas, spreadsheets, and data organization.
- Strong numerical aptitude and attention to detail for accurate data entry and error checking.
- Ability to manage time effectively, prioritize tasks, and meet reporting deadlines in a busy hospital environment.
- Clear written and verbal communication skills for working with finance, administration, and clinical staff.
- Ethical mindset with a commitment to confidentiality and responsible handling of financial and patient-related information.
- Bachelor’s degree or diploma in Accounting, Commerce, Finance, or a related field preferred.
- Internship or prior experience in accounting, healthcare finance, or hospital administration is an advantage.
