Manager – Organizational Development & Performance Management
Epic Group

About the job

The Manager – Organizational Development (OD) & Performance Management (PMS) will be based at the Corporate Office and will lead organization-wide OD and PMS initiatives across both corporate and manufacturing operations. The incumbent will be responsible for driving organizational effectiveness, implementing best-in-class OD practices, strengthening the performance management framework, and ensuring effective utilization of SAP HR modules. The role requires a seasoned OD professional with extensive experience in designing and executing large-scale organizational transformation initiatives.

Key Responsibilities

- Lead and implement organization-wide OD strategies aligned with business objectives.
- Drive the end-to-end PMS, including goal setting, performance reviews, calibration, and performance improvement initiatives.
- Design and implement competency frameworks, organizational structures, job architecture, and career development frameworks.
- Partner with business leaders across corporate and manufacturing plants to implement OD initiatives and drive change management programs.
- Manage and optimize SAP HR modules related to Organizational Management, Performance Management, employee master data, and reporting.
- Ensure SAP HR data accuracy, system optimization, and continuous process improvements through automation.

Educational Requirements

- BBA/MBA with a major in Human Resource Management (HRM) from a reputed university.

Experience Requirements

- Minimum 10–12 years of progressive HR experience, with significant hands-on expertise in OD and PMS.
- Proven experience in leading and implementing large-scale OD initiatives across both corporate offices and manufacturing plants.
- International exposure or experience working with multinational organizations/international stakeholders is mandatory.
- Hands-on experience with SAP HR modules is mandatory.
- Experience in the apparel or manufacturing industry will be highly preferred.

Required Competencies

- Hardcore expertise in Organizational Development methodologies, organizational design, and performance management.
- Demonstrated success in leading enterprise-wide OD and organizational transformation initiatives.
- Sound working knowledge of SAP HR modules and HRIS systems.

- Excellent analytical, problem-solving, and project management skills.
- Strong communication, presentation, and stakeholder management capabilities.
- Excellent command of spoken and written English is mandatory.
- Ability to influence senior leadership and effectively collaborate across all organizational levels.
