- Role: **Manufacturing Specialist (Remote)**
- Location: Remote (Work from Anywhere)
- Job Type: Contract
- Payout: $40 - $65/hour

Role Overview:

We are hiring for one of our clients, seeking a Manufacturing Expert to work on a contract basis. The role involves providing specialized support to optimize manufacturing processes and drive operational efficiency. You will analyze production systems and recommend improvements to enhance output quality and cost-effectiveness.

Key Responsibilities:

• Assess current manufacturing workflows to identify inefficiencies and bottlenecks.

• Develop and implement strategies to streamline production processes and reduce waste.

• Collaborate with cross-functional teams to integrate best practices in lean manufacturing.

• Monitor key performance indicators (KPIs) to track progress and report on outcomes.

• Provide technical guidance to production staff on process optimization and compliance standards.

Required Skills & Qualifications:

• Experience in manufacturing operations with a focus on process improvement.

• Proficiency in lean manufacturing methodologies and Six Sigma principles.

• Strong analytical skills to evaluate production data and performance metrics.

• Knowledge of automation technologies and their application in manufacturing.

• Ability to interpret technical drawings, blueprints, and manufacturing specifications.

• Familiarity with quality control systems and regulatory compliance in manufacturing.

• Experience with enterprise resource planning (ERP) systems for production tracking.

• Excellent problem-solving skills to address operational challenges in real time.

More About the Opportunity:

This role offers a unique opportunity to work with a global leader in the manufacturing industry, contributing to improved production scalability and sustainability. You will play a key role in shaping the future of manufacturing efficiency for high-volume production environments.

Equal Opportunity Employer:

We hire based on skills and expertise. All qualified candidates are welcome regardless of background, experience, or prior employment history. Applications are reviewed solely on demonstrated technical ability and qualifications.
