Online Advertising Expert
Philippines
About the job
Company Description Sapience Cloud is an enterprise platform that functions as an operating system for AI agents, helping organizations unlock new levels of digital productivity. The company enables businesses to build and manage “digital employees” powered by leading AI technologies from OpenAI, Google, Anthropic/Claude, and Perplexity. Its suite of built-in agents, including Data Analyst, Coder, Web Researcher, and File Agents, is designed to act as tireless digital colleagues that significantly increase output and expand what teams can achieve. Sapience Agents work like remote employees who can handle emails, files, voice, and video, and can be customized to match specific workflows. The company focuses on amplifying human judgment by orchestrating AI-powered digital workforces that enhance, rather than replace, human talent.
Summary
About the Role
We're looking for an experienced online advertising expert to run paid campaigns on **LinkedIn** and **Google Ads** for B2B technology clients. This could be a contract engagement (a few months) or a permanent role depending on fit.
What You'll Do
- Plan, execute, and optimize paid LinkedIn ad campaigns (Sponsored Content, Lead Gen Forms, InMail, etc.)
- Plan, execute, and optimize Google Ads campaigns (Search, Display, Performance Max, YouTube, etc.)
- Manage ad budgets and deliver measurable ROI
- Report on campaign performance with clear, data-driven insights
- Collaborate with internal teams on targeting, messaging, and creative
Requirements
- Proven experience running paid LinkedIn and Google Ads campaigns
- **B2B technology experience is mandatory** - if you don't have it, please do not apply
- Strong understanding of B2B buyer journeys and lead gen funnels
- Hands-on experience with analytics and reporting tools (Google Analytics, Looker Studio, HubSpot, etc.)
- Ability to work independently and communicate clearly
Nice to Have
- Experience with ABM (account-based marketing) campaigns
- Familiarity with CRM platforms and marketing automation
