Remote Equity Research Analyst
LS Solutions · Burton, MI (Remote)

About the job
DataAnnotation seeks experienced finance professionals (MBA+ preferred) for remote, independent contractor roles to enhance AI understanding of finance concepts.

Responsibilities include reviewing and improving AI responses on macro trends, corporate finance, and capital markets, testing AI reasoning with complex scenarios, and providing structured feedback.

Qualifications include expert financial reasoning, proficiency in analysis and modeling, with a Master's or PhD preferred.

Benefits include flexible scheduling, project choice, and pay rates of $50-$60/hour via PayPal.

Ideal candidates are detail-oriented, fluent in English, and skilled in finance data analysis.

This position involves evaluating AI outputs for correctness and performance, helping shape smarter, more reliable AI tools.
