Search Engine Optimisation Intern
India

About the job

We are looking for an SEO Intern who is genuinely eager to learn, improve, and grow in the field of SEO and digital marketing.

This internship is not just for someone looking to add a certificate to their resume. We are looking for someone who has hunger, curiosity, discipline, and the willingness to put in real effort every day.

You do not need to be an SEO expert right now. We are okay if you do not have strong technical skills yet. What matters most to us is your attitude, learning speed, consistency, and ability to adapt quickly.

What We Are Looking For

- Someone who is very eager to learn SEO and digital marketing.
- Someone who can work in a fast-moving environment where tasks, priorities, and strategies can change quickly.
- Someone who can adapt quickly instead of getting stuck when things change.
- Someone who takes deadlines seriously.
- Someone who accepts feedback positively and improves from it.
- Someone who is responsible, consistent, and does not need to be reminded again and again.
- Someone who asks questions, takes notes, and tries to understand the “why” behind every task.
- Someone who is comfortable learning new tools, processes, and SEO concepts.
- Someone who has a laptop and a stable internet connection.

What You Will Learn & Grow Into

During this internship, you will learn how SEO work is planned, managed, and executed inside a growing digital marketing company.

You will get exposure to:

- SEO strategy, content planning, on-page SEO, and reporting.
- How to manage SEO tasks and follow deadlines.
- How to assign work to content writers and review their content.
- How to coordinate with writers, developers, and team members.
- How to create systems, checklists, and processes for smooth execution.
- How to take ownership instead of waiting for instructions.
- How to think from a business and growth point of view.
- How to build leadership, communication, and team management skills.

Internship Details

Position: SEO Intern

Duration: 3 Months

Internship Type: Unpaid Internship (Might turn into a performance-based paid internship based on your interview)

Job Offer: Based on performance, this internship can turn into a paid job offer.

Requirement: A laptop and a stable internet connection are mandatory.

Who Should Apply

Apply only if you are serious about learning SEO, can take feedback properly, respect deadlines, and are ready to work in a growth-driven environment.

This role is ideal for someone who may not know everything yet, but is hungry enough to learn quickly and improve every day.
