UGC content Creator Intern

Pune Division, Maharashtra, India

Company Description: Prismax India represents Prismax Germany, a premium automotive care brand headquartered in Munich, Germany. The company specializes in high-quality paint protection films, ceramic coatings, and professional detailing chemicals and tools. Prismax focuses on delivering advanced protection and enhancement solutions for vehicles, combining innovation with meticulous craftsmanship. Team members work in a performance-oriented environment that values creativity, product knowledge, and a strong passion for automotive care. Joining Prismax India offers exposure to global standards and practices within the automotive detailing industry.
Role Description: The UGC Content Creator Intern role is a full-time, on-site position based in the Pune Division. The intern will create engaging user-generated content (UGC) in the form of short videos, photos, and reels that showcase Prismax products and real customer experiences. Daily tasks include planning and shooting content in the studio, workshop, or on-location, collaborating with the marketing team to align content with brand guidelines, and adapting trends from social media platforms such as Instagram and YouTube Shorts. The role also involves basic editing of content for social channels, assisting with campaign brainstorming, and participating in product demonstrations to accurately represent features and benefits. The intern is expected to maintain a consistent posting schedule and contribute creative ideas to strengthen community engagement and brand visibility.
Qualifications:

- Ability to create short-form visual content (videos, reels, photos) for social media platforms, with an understanding of current UGC and creator trends.
- Basic skills in video shooting and mobile or entry-level camera operation, along with familiarity with simple editing tools (e.g., CapCut, InShot, or similar apps).
- Strong creative thinking, storytelling, and concept development abilities to present automotive care products in an appealing and authentic way.
- Interest in automotive care, detailing, or car culture, with a willingness to learn about paint protection films, ceramic coatings, and detailing products.
- Clear communication skills and the ability to collaborate with marketing and operations teams in a fast-paced, on-site environment.
- Comfort with appearing on camera or directing others, and confidence in experimenting with new content formats and ideas.
- Currently pursuing or recently completed studies in media, communications, marketing, design, or a related field is preferred but not mandatory.
- Ability to work full-time on-site in the Pune Division, with reliability, professionalism, and a proactive approach to tasks.
