Web Developer

AgileGrid Solutions · United States (Remote)

About The Company

DevHub is a dynamic and innovative technology company dedicated to delivering exceptional web development solutions to a diverse range of clients. Our team is composed of passionate professionals committed to excellence, creativity, and continuous learning. We pride ourselves on fostering a collaborative environment where ideas thrive, and technological advancements are embraced to meet the evolving needs of our clients. Located in Wichita, Kansas, DevHub has established a reputation for quality, reliability, and forward-thinking approaches in the digital space. We believe in empowering our employees, providing them with opportunities to grow their skills and contribute meaningfully to impactful projects that shape the online presence of businesses across various industries.

About The Role

We are seeking a talented and motivated Web Developer to join our growing team at DevHub. This full-time position offers an exciting opportunity to work on a broad spectrum of projects, from enhancing existing websites to developing custom web applications. The ideal candidate will have a strong foundation in both front-end and back-end development, with a passion for creating responsive, accessible, and user-friendly digital solutions. You will collaborate closely with designers, project managers, and other developers to ensure the successful delivery of high-quality projects that meet client specifications and industry standards. This role is perfect for someone who enjoys problem-solving, staying current with emerging technologies, and contributing to a vibrant team environment.

Qualifications

The ideal candidate should possess a comprehensive skill set that includes:

- Strong experience with HTML, CSS, JavaScript, and jQuery for front-end development.
- Proficiency with modern JavaScript frameworks such as Vue.js.
- Understanding of responsive design principles and accessibility standards.
- Hands-on experience with PHP 8 and MySQL for back-end development.
- Solid knowledge of object-oriented programming concepts.
- Experience working with MVC frameworks, particularly Laravel.
- Ability to integrate RESTful APIs and third-party web services effectively.
- Familiarity with version control systems like Git.
- Basic knowledge of GNU/Linux environments and Apache web servers.

- Experience with package managers such as Composer and npm.
- Familiarity with design tools like Figma and Adobe Photoshop.
- CMS experience with platforms like WordPress or ExpressionEngine is a plus.
- Self-motivated with excellent problem-solving and communication skills.
- Ability to adapt to a fast-paced environment and manage multiple projects efficiently.
- Strong attention to detail and a commitment to delivering high-quality work.

Responsibilities

The Web Developer will be responsible for a variety of tasks, including but not limited to:

- Transforming creative designs into dynamic, responsive, and accessible websites and applications.
- Building and maintaining custom functionalities using modern development practices.
- Testing websites across various browsers, operating systems, and devices to ensure compatibility and optimal performance.
- Maintaining and updating existing websites and applications by troubleshooting issues, applying fixes, and deploying enhancements.
- Integrating third-party APIs and RESTful web services to extend functionality.
- Investigating and resolving application, database, and server-related issues promptly.
- Collaborating with designers, developers, and project managers to ensure project milestones are met on time and within scope.
- Participating in code reviews, documentation, and testing to uphold coding standards and quality assurance.
- Staying current with emerging web technologies and best practices to continuously improve development processes.

Benefits

At DevHub, we value our team members and offer a comprehensive benefits package designed to support your professional and personal well-being. Benefits include:

- Competitive salary ranging from USD 65,000 to 85,000 based on experience and skills.
- Full-time employment with a hybrid work environment, allowing flexibility and work-life balance.
- Paid time off to rest and recharge.
- Company-paid health and dental insurance to ensure your health needs are covered.
- Company-paid short-term and long-term disability insurance for financial security.
- Company-paid life insurance to support your loved ones.
- Participation in a Simple IRA plan with company matching contributions.
- Opportunities to work on diverse projects with an innovative and collaborative team.
- Access to snacks and beverages to keep you energized throughout the day.

- Professional development opportunities and a culture that encourages continuous learning and growth.

Equal Opportunity

DevHub is an equal opportunity employer committed to fostering an inclusive environment for all employees. We celebrate diversity and are dedicated to providing equal employment opportunities regardless of race, religion, gender, sexual orientation, age, disability, or any other characteristic protected by law. We believe that a diverse workforce enhances our creativity, innovation, and overall success, and we strive to create a workplace where everyone feels valued, respected, and empowered to contribute their best.
