Web Developer Intern (Remote)

Company: Medinex Workforce

Job Type: Full-Time Internship

Work Mode: Remote

Duration: 1–3 Months

Stipend: ₹16,500 per month

About the Role

Medinex Workforce is seeking a Web Developer Intern to support the design, development, and maintenance of responsive web applications. This internship provides practical experience in front-end and basic back-end web development while working remotely with a collaborative team.

Key Responsibilities

* Assist in developing and maintaining websites and web applications.
* Build responsive web pages using HTML, CSS, and JavaScript.
* Support implementation of new features and functionality.
* Test, debug, and optimize websites for performance and usability.
* Collaborate with team members on development tasks.
* Maintain clean, organized, and well-documented code.

Requirements

* Currently pursuing or recently completed a Bachelor’s degree in Computer Science, Information Technology, or a related field.
* Basic knowledge of HTML, CSS, and JavaScript.
* Familiarity with responsive web design principles.
* Knowledge of React, Node.js, PHP, or other web technologies is a plus.
* Strong analytical and problem-solving skills.
* Good communication and willingness to learn.

What You’ll Gain

* Hands-on experience in web development projects.
* Exposure to modern web technologies and development workflows.
* Mentorship from experienced professionals.
* Remote work flexibility.
* Internship Certificate upon successful completion.

Application Process

Interested candidates can apply through LinkedIn with their updated resume.

Medinex Workforce is an equal opportunity employer. Selection decisions are based on qualifications, skills, and business requirements.
