Employment Terms & Visa Policy
This is a 100% remote, full-time, direct W2 position with Bright Vision Technologies.
This role is part of Bright Vision Technologies' in-house Statement of Work (SOW) engagement.
The client, end customer, and employer for this position is Bright Vision Technologies — there is no third-party client, vendor, or implementation partner involved.
We do not engage in C2C, 1099, or third-party arrangements for this role.
BUT STRICTLY NO C2C/1099/3RD PARTY COMPANIES. ALL OUR ROLES ARE W2 AND NO 3RD PARTY BROKERING PLEASE.
Candidates must be willing to work directly as a full-time W2 employee of Bright Vision Technologies and contribute to our in-house SOW deliverables.
No new H1B sponsorship is available for this role.
However, candidates who are currently on a valid H1B visa and require a transfer are welcome to apply. We will support H1B transfers for qualified candidates.
For every role, a technical coding assessment is mandatory. Please apply only if you are confident in your technical abilities and hands-on experience.

Job Summary
We are seeking an Adobe Experience Manager (AEM) Developer to build and maintain enterprise-grade digital experiences on AEM Sites, AEM Assets, and AEM as a Cloud Service. The role focuses on hands-on development of components, templates, workflows, integrations,

and front-end experiences using AEM's modern stack, with strong attention to performance, content authoring experience, and long-term maintainability. The ideal candidate has shipped meaningful AEM work in production, understands modern AEM patterns including SPA editor and headless delivery, and balances technical rigor with editor and content-author needs.

Key Responsibilities

Design and develop AEM Sites components, templates, and content fragments following modern AEM patterns.
Build OSGi services, Sling models, servlets, and Java backend logic within AEM.
Develop front-end experiences using HTL, JavaScript, and modern build tools.
Implement headless and hybrid delivery patterns using AEM Content Fragments, GraphQL APIs, and edge delivery.
Migrate or build implementations on AEM as a Cloud Service with cloud-native CI/CD pipelines.
Develop AEM Assets workflows including DAM customizations and metadata schema design.
Integrate AEM with Adobe Experience Cloud (Target, Analytics, Campaign) and external systems.
Implement personalization, A/B testing, and targeted content delivery using AEM and Adobe Target.
Optimize page performance, caching, and Dispatcher configuration for high-traffic sites.
Build CI/CD pipelines using Cloud Manager, GitHub Actions, or Jenkins for AEM deployments.
Participate in code reviews, contribute to standards, and document technical decisions.
Troubleshoot production issues spanning author, publish, and Dispatcher tiers of the AEM stack, applying systematic diagnostic techniques and partnering with infrastructure teams when issues cross tier boundaries.
Collaborate with content authors, designers, and product owners on authoring experience improvements.
Stay current with AEM releases, Cloud Service evolution, and Adobe ecosystem developments.
Required Qualifications

Bachelor's degree in Computer Science or a related field.
Five or more years of AEM development experience.
Deep expertise in Java, OSGi, Sling, and HTL.
Strong understanding of AEM architecture including author, publish, and Dispatcher tiers.
Hands-on experience with AEM as a Cloud Service or AEM 6.5.
Experience building Content Fragments, GraphQL APIs, and headless delivery patterns.
Strong front-end skills with modern JavaScript and build tools.
Experience with CI/CD pipelines for AEM deployments.
Strong troubleshooting and performance-tuning skills.
Excellent communication and stakeholder management skills.
Preferred Qualifications

Adobe Certified AEM Developer credentials.
Experience with Edge Delivery Services and Franklin/HLX.

Familiarity with Adobe Experience Platform.
Exposure to multi-region or multi-brand AEM deployments.
Experience integrating AEM with commerce platforms (Magento, Salesforce Commerce Cloud).
