[HIRING] **DATA ANALYST**

- Must have: strong analytical skills, builds and maintains complex dashboards and financial models
- Must have: experience with data visualization tools (Google Sheets, Looker, or similar)
- Must have: comfortable with SQL or database querying
- Must have: understands digital marketing metrics, knows what CPL, CPA, ROAS, and MER mean and how they connect
- Must have: detail-oriented with a bias for accuracy, catches discrepancies before they cause problems
- Not a fit: cannot show a dashboard or model they built
- Not a fit: no SQL or database querying ability
- Not a fit: does not understand the core marketing metrics

If you have any of these skills, experience, and traits, message me so I can refer you to someone who can hire you
