Digital Workspace (EUC) Pricing & Commercial Strategy Expert

Location Requirements

United States

Mercor is recruiting on behalf of a leading AI research lab seeking experienced professionals to help evaluate how enterprise software vendors structure pricing, licensing, renewals, and go-to-market strategies. The ideal candidate has firsthand experience shaping commercial strategy, negotiating large enterprise agreements, managing software licensing programs, or overseeing channel and partner relationships within enterprise technology markets.

Responsibilities

- Provide insights into enterprise software pricing models, packaging strategies, and licensing frameworks.
- Discuss customer purchasing behaviour, discounting practices, and contract structures.
- Share perspectives on renewals, account expansion, and revenue optimisation strategies.
- Explain channel, distribution, and partner ecosystem economics.
- Support analysis of competitive positioning and commercial trends across enterprise software categories.
- Contribute expert judgment on how large organisations evaluate, purchase, and deploy software solutions.

Preferred Backgrounds

- Pricing Strategy
- Commercial Strategy
- Revenue Operations
- Deal Desk
- Licensing & Monetization
- Channel & Partner Management
- Enterprise Procurement
- Digital Workplace / Infrastructure Leadership

Ideal Candidates

Professionals who have worked at:

- Enterprise software vendors
- Cloud and infrastructure providers
- Endpoint management or digital workplace companies
- Systems integrators and value-added resellers
- Software distributors
- Large enterprise IT organisations

Requirements

- 5+ years of relevant industry experience.
- Recent exposure to enterprise software commercial models and customer agreements.
- Strong understanding of pricing, licensing, renewals, and partner ecosystems.
- Ability to discuss real-world commercial practices and market dynamics.
- Experience with large enterprise customers is strongly preferred.
