Generalist Expert

Overview

In this role, you will evaluate AI-generated responses and provide structured written feedback. This is a great opportunity for sharp, analytical thinkers to contribute to high-impact AI research projects.

Basic Qualifications

- Bachelor's degree from a top-100 globally ranked university preferred
- Strong analytical and written communication skills
- Ability to work independently and follow detailed task guidelines

Required Skills

- Strong critical reading skills with the ability to identify nuance, implicit meaning, and gaps in reasoning
- Ability to write clear, precise, and well-evidenced written rationales that go beyond surface-level observations
- Consistent and honest judgment, including the ability to give critical assessments when warranted
- Strict attention to detail and accurate application of structured evaluation guidelines
- Ability to work entirely without AI writing tools

Eligibility

- Native English fluency required
- Candidates based in the United States, United Kingdom, Canada, Australia, or New Zealand are preferred

We consider all qualified applicants without regard to legally protected characteristics and provide reasonable accommodations upon request.

Contract and Payment Terms

- You will be engaged as an independent contractor.
- This is a fully remote role that can be completed on your own schedule.
- Projects can be extended, shortened, or concluded early depending on needs and performance.
- Your work at Mercor will not involve access to confidential or proprietary information from any employer, client, or institution.
- Payments are weekly on Stripe or Wise based on services rendered.

- Please note: We are unable to support H1-B or STEM OPT candidates at this time.
