[Hiring] Freelancer for AI language training (from 30$ to 95$ per hour)

Multilingual AI Language Specialist (Remote, Freelance)

Job Title

Multilingual AI Language Specialist

Job Type

Independent Contractor / Freelance

Location

Remote (Worldwide)

About the Role

We are looking for talented language professionals to help train and improve next-generation Artificial Intelligence systems.

As a Multilingual AI Language Specialist, you will contribute your linguistic expertise to enhance AI models through high-quality annotation, text evaluation, translation, and data validation tasks. No previous AI experience is required — your language skills and attention to detail are what matter most.

We are currently hiring for the following languages:

- Russian
- Polish
- Turkish
- Portuguese
- Kazakh

- Tamil
- Mandarin Chinese
- German
- Bengali
- Sindhi
- English
- Belarusian
- Faroese
- Sanskrit
- Thai
- Japanese
- Bulgarian
- Spanish
- Javanese
- Norwegian
- Italian
- Dutch
- Hebrew
- French
- Arabic
- Indonesian
- Tajik
- Georgian

Applicants should have native or near-native proficiency in at least one of these languages.

Key Responsibilities

- Review, analyze, and accurately label multilingual text data.
- Evaluate linguistic quality, grammar, semantics, and contextual accuracy.
- Annotate and validate AI training data according to project guidelines.
- Translate and compare content between your native language and English when required.
- Perform quality assurance checks to maintain consistency and accuracy.
- Document annotation decisions and follow established best practices.
- Collaborate with project managers and team members to improve workflows.
- Provide constructive feedback to help optimize AI language models.
- Maintain confidentiality and handle sensitive information responsibly.

Required Skills and Qualifications

- Native or near-native fluency in one or more of the listed languages.
- Good command of written and spoken English.

- Excellent grammar, spelling, and communication skills.
- Strong attention to detail and analytical thinking.
- Ability to work independently in a remote environment.
- Reliable internet connection and access to a computer.
- Ability to meet deadlines and follow detailed instructions.

Preferred Qualifications

- Experience in translation, transcription, proofreading, localization, or linguistic annotation.
- Previous work with AI, machine learning, or language technology projects.
- Bachelor's degree in Linguistics, Translation, Languages, Literature, or a related field.
- Familiarity with annotation platforms and data labeling tools.
- Experience working with multilingual content.

What We Offer

- Fully remote work.
- Flexible working hours.
- Long-term freelance opportunities.
- Competitive project-based compensation.
- Work on cutting-edge AI technologies.
- International and collaborative work environment.
- Training and onboarding for project-specific tasks.
