[Hiring] Software Developer — Remote, Full-time (7LPA). 0-3 years freshers

Salary: 7LPA
Base- India Base

We are seeking a motivated and enthusiastic Software Developer Fresher to join our development team. The candidate will work alongside experienced engineers to design, develop, test, and maintain software applications. This role is ideal for recent graduates who are eager to learn and build a career in software development.

Roles & Responsibilities

- Design, develop, test, and maintain software applications.
- Write clean, efficient, and maintainable code following industry best practices.
- Collaborate with cross-functional teams to analyze requirements and deliver technical solutions.
- Debug, troubleshoot, and resolve software defects.
- Participate in code reviews and contribute to improving development standards.
- Develop and integrate RESTful APIs and third-party services.
- Optimize application performance, scalability, and security.
- Stay updated with emerging technologies and recommend improvements.

Required Skills

- Strong knowledge of programming languages such as Java, Python, C#, JavaScript, or C++.
- Good understanding of Object-Oriented Programming (OOP) concepts.
- Familiarity with HTML, CSS, JavaScript, and modern front-end frameworks (React, Angular, or Vue.js) is a plus.
- Knowledge of databases such as MySQL, PostgreSQL, or MongoDB.
- Understanding of REST APIs and web application development.
- Familiarity with Git and version control systems.
- Basic understanding of software development methodologies such as Agile/Scrum.
- Strong analytical, problem-solving, and communication skills.
