Voice Actor: CX Agent Voice Cloning (USA)

Key Responsibilities

- Record high-quality voice samples across diverse scripts (conversational, narrative, instructional, etc.)
- Deliver clear, natural, and expressive speech with strong control over tone, pacing, and pronunciation
- Maintain consistency in voice, accent, and delivery across recording sessions
- Follow detailed recording guidelines (environment, microphone setup, file formatting)
- Perform multiple takes with variation in emotion, emphasis, and style when required

Requirements

- Native American English speaker currently based in the United States
- Proven experience in voice acting, dubbing, narration, podcasting, or broadcasting
- Access to a professional or near-professional recording setup (quality microphone, quiet environment, pop filter, etc.)
- Strong command of intonation, diction, and emotional range
- Ability to follow scripts precisely while maintaining natural delivery
- Reliable availability for 5-10 hours per week over the project duration
- [IMP]: Your voice may be cloned for the clients CX AI Agent so please only apply if you are okay with voice cloning

Preferred Qualifications

- Experience recording for TTS, audiobooks, IVR systems, or AI voice datasets
- Familiarity with audio editing tools (e.g., Audacity, Adobe Audition, Reaper)
- Ability to deliver multiple vocal styles (e.g., conversational, corporate, energetic, calm)

We consider all qualified applicants without regard to legally protected characteristics and provide reasonable accommodations upon request.

Contract and Payment Terms

- You will be engaged as an independent contractor.
- This is a fully remote role that can be completed on your own schedule.
- Projects can be extended, shortened, or concluded early depending on needs and performance.
- Your work at Mercor will not involve access to confidential or proprietary information from any employer, client, or institution.
- Payments are weekly on Stripe or Wise based on services rendered.
- Please note: We are unable to support H1-B or STEM OPT candidates at this time.
