[For Hire] [Remote] [Serbia/Europe] - Mid-level Backend Developer

FOR HIRE
Found out I'm going to be an uncle soon — it's the push that got me serious about going senior in the next 9 months. Mostly backend, comfortable full-stack, putting in real hours either way.

Stack: Node.js, Express, PostgreSQL, React, Next.js, TypeScript, PHP/Laravel, Python, C++

Availability: [15-20 hours/week, remote, CET timezone]
