[Hiring] F25 YC startup looking for a founding engineer

Have a F25 company building AI agents for human-level work, hiring a Founding Backend Engineer; should already be in SF, $130K-$180K, no visa sponsorship, urgent start next week.
Drop your CVs at mohit.raj@verityhire.co

Edit: Please don't mail us with your CVs if you're not in SF, this is not a remote opportunity.
