micro1 is hiring **Data Annotation Generalists** to help train next-generation AI systems through high-quality data labeling and review.

What you'll do:

• Label and annotate datasets
• Review and correct annotations
• Improve workflows and guidelines

Requirements:

• Strong attention to detail
• Experience with data annotation or labeling
• Clear written communication
• Ability to follow detailed instructions

Ideal for data annotators, reviewers, and detail-oriented professionals looking to contribute to AI development.

Apply now: https://jobs.micro1.ai/data-annotation-generalist

Bonus: Experience with text, image, audio, or video annotation is a plus.
