micro1 is hiring **Video Editors** to help train the next generation of AI systems. If you have experience with **video editing, animation, visual effects, and storytelling**, this is a unique opportunity to apply your creative expertise to improve AI models used for educational content, robotics, and digital media.

🌍 **Location:** Remote

💰 **Compensation: $40–$80/hour**

📄 **Employment Type:** Contractor | 100 openings

What You'll Do

🎬 Review, evaluate, and refine video edits, animations, and visual effects for AI training.

🎨 Assess AI-generated media and ensure outputs meet quality, storytelling, and factual standards.

🗂️ Organise project files, media assets, and datasets for efficient collaboration and annotation workflows.

📊 Develop evaluation rubrics and benchmarking frameworks for AI-generated video content.

💡 Identify weaknesses, edge cases, and opportunities to improve AI-generated visual storytelling.

🤝 Collaborate with cross-functional teams by providing clear written and verbal feedback.
